This type of access is typically done using Intune-managed certificates for access control, combined with a standard VPN gateway or proxy in the perimeter such as Microsoft Azure Active Directory Application Proxy. In these cases, the only way to access corporate data is to enroll the device into management.

Common ways to use Microsoft Intune | Microsoft Docs

Access Solutions easily. Earlier, you could only access solutions from the Advanced customizations area in PowerApps. All solutions can now be accessed directly by selecting Solutions in the left navigation. Selecting Solutions will display a list of solutions or let you create one. You can access almost all of the operations that you can ...
