study of meaning expressed by elements of any language, characterizable as a symbolic system. It is the goal of linguistic semantics to describe the meaning of linguistic elements and to study the principles which allow (and exclude) the assignment of meaning to combinations of these elements.

What is semantics, what is meaning
As with general theories of meaning (see the entry on theories of meaning), two kinds of theory of word meaning can be distinguished. The first kind, which we can label a semantic theory of word meaning, is a theory interested in clarifying what meaning-determining information is encoded by the words of a natural language.
